

Invitation -Reborn after 10th SEAWE-

A series of International Symposium on Southeast Asian Water Environment (SEAWE) has been successfully organized since 2003. These symposia attracted numbers of researchers, policy makers, NGO workers and graduate students to share invaluable knowledge on water environmental issues. SEAWE gains in more importance in Southeast Asia and the surrounding regions after the great success in the 10th SEAWE in 2012.

We are pleased to announce that the 11th SEAWE will be held at Asian Institute of Technology (AIT), Bangkok, Thailand from November 26-28, 2014. This symposium is organized by Research Center for Water Environment Technology (RECWET) in the University of Tokyo (UT) and Southeast Asian Center for Water Environment Technology (SACWET) in AIT in cooperation with Ministry of the Environment (MOE) and Chuo University in Japan.

The purpose of this Symposium is to provide a forum for networking various participants working on water environment issues in Southeast Asia and the surrounding regions. Interaction among participants will be expected through attractive platform and poster presentations. In addition, an interesting technical tour is scheduled on the first day of symposium to promote intercommunion among participants and understanding of local situations of water environment.

We do hope that strong network or partnership with active local agents will be established through the symposium, which then creates another opportunity for collaboration. Contribution of young professionals is one of the important factors of the symposium. Since the 7th SEAWE, the Award for Asian Young Professional on Water Research has been established with a support from the Ohgaki Scholarship fund. The Award is given to distinguished young professionals who demonstrate the most outstanding and promising performance in the symposium, and will be invited to the next symposium.

On behalf of the organizing committee, we would like to ask interested researchers/experts to apply for platform and poster presentations and disseminate this announcement to potential participants.

Prof. Hiroaki Furumai
RECWET, University of Tokyo

Call for Paper

<Topics>

The following specific subjects related to Asian water environment, especially in Southeast Asia, are selected as the topics.

*Appropriate technologies for water and sanitation
Climate change and water environment management
Emerging contaminants and environmental technology
Health-related water issues
Monitoring and modeling of water environment
Water environment issues and sustainability
Water environment policy
Watershed management
Water supply and treatment
Wastewater treatment and management*

<Format>

Manuscripts for platform and poster presentations should be prepared according to the format specified at:

http://www.env.t.u-tokyo.ac.jp/project/asian_water2014/

<Submission and Deadline>

Please send the manuscript with "manuscript submission form" to asiasympo2014@env.t.u-tokyo.ac.jp.

Platform presentations: August 3, 2014.

Poster presentations: September 14, 2014.

All applicants will receive an acknowledgment via e-mail upon the submission of the manuscript. According to peer review by program committee, platform and poster presenters will be selected. The corresponding author of platform presentation will be informed of the result of the review by early September.

Registration and Fee

The registration fee is 5,000 Thai Baht or 15,000 Japanese Yen, which will be collected at the symposium site. The fee includes full attendance for the three-day activities, including academic and social events, field trip and symposium proceedings as well as materials supplied by the symposium organizing office. Registration procedure will be informed later through the symposium webpage.

Financial Support

Financial support will be given to the selected oral presenters from developing countries. (The country here does not mean the nationality but the place of residence). We are not able to assist students due to our administration rule.

Organized by:

Research Center for Water Environment Technology (RECWET, UTokyo)
Southeast Asian Center for Water Environment Technology (SACWET)
Asian Institute of Technology (AIT)

Co-organized by:

Water Environment Partnership in Asia (MOE, Japan)
Research Unit on Water and Wastewater Treatment Technology (Chuo Univ., Japan)
Laboratory of Hydraulics and Hydrology (Chuo Univ., Japan)

Supported by:

Japan Society on Water Environment (JSWE, Japan)

International Scientific Committee:

Prof. Hiroaki Furumai (UTokyo, Japan)
Prof. Kazuo Yamamoto (AIT/UTokyo, Thailand)
Prof. Chettiyappan Visvanathan (AIT, Thailand)
Prof. Tjandra Setiadi (ITB, Indonesia)
Dr. Futoshi Kurisu (UTokyo, Japan)
Dr. Suraphong Wattanachira (CMU, Thailand)
Dr. Udomphon Puetpaiboon (PSU, Thailand)
Dr. Chart Chiemchaisri (KU, Thailand)
Dr. Tran Thi Viet Nga (HUCE, Vietnam)

Organizing committee:

Prof. Hiroaki Furumai (UTokyo, Japan)
Prof. Chettiyappan Visvanathan (AIT, Thailand)
Dr. Thammarat Koottatep (AIT, Thailand)
Dr. Tawan Limpiyakorn (CU, Thailand)
Dr. Parinda Thayanukul (HSM & CU, Thailand)
Mr. Masahiro Yasuda (MOE, Japan)
Dr. Hiroshi Yamamura (Chuo Univ., Japan)
Dr. Ikuro Kasuga (UTokyo, Japan)
Dr. Rajendra Khanal (UTokyo, Japan)
