

Organized by:

- National University of Civil Engineering (NUCE, Vietnam)
- Research Center for Water Environment Technology, The University of Tokyo (UT, Japan)
- Southeast Asian Center for Water Environment Technology, Asian Institute of Technology (AIT, Thailand)

Co-organized by:

- United Nations University, Institute for the Advanced Study of Sustainability (UNU-IAS, Japan)
- Water Environment Partnership in Asia (WEPA), Ministry of the Environment (MOE, Japan)

Program committee:

- Prof. Hiroaki Furumai (UT, Japan)
- Dr. Hiroyuki Katayama (UT, Japan)
- Dr. Futoshi Kurisu (UT, Japan)
- Dr. Tran Thi Viet Nga (NUCE, Vietnam)
- Dr. Nguyen Viet Anh (NUCE, Vietnam)
- Dr. Ikuro Kasuga (UT, Japan)
- Dr. Yoshifumi Masago (UNU-IAS, Japan)
- Prof. Chettiyappan Visvanathan (AIT, Thailand)
- Dr. Suraphong Wattanachira (Chiang Mai University, Thailand)
- Prof. Tjandra Setiadi (Institut Teknologi Bandung, Indonesia)
- Dr. Udomphon Puetpaiboon (Prince of Songkla University, Thailand)
- Dr. Chart Chiemchaisri (Kasetsart University, Thailand)
- Dr. Do Thuan An (Water Resources University, Vietnam)
- Dr. Rajendra Khanal (UT, Japan)

Organizing committee:

- Prof. Hiroaki Furumai (UT, Japan)
- Dr. Kumiko Oguma (UT, Japan)
- Mr. Masaki Suehisa (Deputy Director, MOE, Japan)
- Prof. Pham Duy Hoa (Rector, NUCE, Vietnam)
- Dr. Tran Thi Viet Nga (Dean, FEE, NUCE, Vietnam)
- Dr. Nguyen Hoang Giang (Director, Int'l Coop Dept, NUCE, Vietnam)
- Dr. Nguyen The Dong (Deputy Director General VEA/MONRE, Vietnam)

First Announcement

The 12th International Symposium on Southeast Asian Water Environment, Hanoi, Vietnam November 28-30, 2016

Invitation

We are pleased to announce that 12th SEAWE will be held in Hanoi, Vietnam, from November 28-30, 2016. This symposium is organized by Research Center for Water Environment Technology (RECWET) at the University of Tokyo (UT, Japan) and Southeast Asian Center for Water Environment Technology (SACWET) at Asian Institute of Technology (AIT, Thailand) in cooperation with National University of Civil Engineering (NUCE, Vietnam), United Nations University (UNU, Japan), and Water Environment Partnership in Asia (WEPA) at the Ministry of the Environment (MOE, Japan).

A series of International Symposium on Southeast Asian Water Environment (SEAWE) has been successfully organized since 2003, gaining in more importance in Southeast Asia and the surrounding regions. These symposia attracted numbers of researchers, policy makers, NGO workers and graduate students to share invaluable knowledge on water environmental issues.

The purpose of this Symposium is to provide a forum for various participants to present their latest research results, ideas, developments, and applications on water environment issues. Interaction among participants will be also expected through attractive platform and poster presentations. In addition, an interesting technical tour is scheduled on the first day of symposium to promote intercommunion among participants and understanding of local situations of water environment.

We do hope that strong network or partnership with active local agents will be established through the symposium, which then creates another opportunity for collaboration. Contribution of young professionals is one of the important factors of the symposium. Since the 7th SEAWE, the Award for Asian Young Professional on Water Research has been established with a support from the Ohgaki Scholarship fund. The Award is given to distinguished young professionals who demonstrate the most outstanding and promising performance in the symposium, and will be invited to the next symposium.

On behalf of the organizing committee, we would like to ask you to apply for platform and poster presentations and disseminate this announcement to potential participants.

Prof. Hiroaki Furumai
RECWET, The University of Tokyo

Call for Paper

The following specific subjects related to Asian water environment, especially in Southeast Asia, are selected as the topics.

- Appropriate technologies for water and sanitation
- Climate change and water environment management
- Coastal and marine water environment
- Emerging contaminants and environmental technology
- Health-related water issues
- Monitoring and modeling of water environment
- Water environment issues and sustainability
- Water environment policy
- Watershed management
- Water supply and treatment
- Wastewater treatment and management

Other topics related water environment are also welcome.

Manuscripts for platform and poster presentations should be prepared based on the templates available at the symposium website.

http://www.recwet.t.u-tokyo.ac.jp/asian_water2016/For_Presenters.html

Deadline for oral presentations 07 Aug, 2016

Deadline for poster submissions 23 Sep, 2016

Please submit the files to: asiasympo2016@env.t.u-tokyo.ac.jp

All applicants will receive an acknowledgment via e-mail upon submission of the manuscript. For oral presentations, the corresponding author will be informed of the result of the review by early September.
