1 December 2021

Dear Prof./Dr./Sir/Madam,

On behalf of the Organizing Committee, it is our great pleasure to invite you to participate in **the 4th International Forum on Asian Water Environment Technology (IFAWET) 2021**, 10-11 December 2021 via ONLINE.

The IFAWET 2021 is jointly organized by Water and Membrane Technologies Laboratory, **School of Energy and Environment, City University of Hong Kong**, and The Research Centre for Water Environment Technology, **The University of Tokyo**.

This conference will provide a platform for sharing the most recent technological innovations and scientific developments associated with water resources management, water treatment technology, and water/environmental issues, including emerging pollutants, resource recovery, and energy efficiency amid the Covid-19 Pandemic.

There will be 3 keynote speeches, 16 oral, and 30 poster presentations on different topics as follows:
- **Advanced Membrane technology**
- **Emerging organic contaminants (EOCs)**, antibiotic resistant bacteria (ARB), and antibiotic resistance genes (ARGs) in the water environment.
- **Water-Based Epidemiology**
- **Disinfection and water management strategies**

Selected papers and posters will be recommended for ***Special Issues*** in high-quality journals (*Desalination* and *Journal of Water Process Engineering*). Three Best Poster Award will be selected.

To join the conference, you are requested to kindly complete the quick registration step at the conference website (**https://ifawet2021.com**) using your institutional or personal email address.
Please note, there will be no registration fee charges.
After successful registration, please click the "**Program**" tab to access all the webinar links to join the sessions.

It is also highly appreciated if you could help to circulate this invitation to your networks and contacts.

We are looking forward to welcoming you to IFAWET 2021.
