First Announcement

The Sixth International Symposium on

Southeast Asian Water Environment

October 29-31, 2008
Bandung, Indonesia

Invitation:

In the past five years, we have successfully organized a series of international symposia on Southeast Asian Water Environment. These symposia attracted numbers of researchers, policy makers, NGO workers, and graduate students in the world, where the participants exchanged impressive and invaluable body of knowledge concerning environmental issues in Southeast Asia.

Research Center for Water Environment Technology (RECWET) in the University of Tokyo (UT) and Southeast Asian Center for Water Environment Technology (SACWET), joint center of Asian Institute of Technology (AIT) and UT, in cooperation with the Faculty of Industrial Technology, Institut Teknologi Bandung and Centre for Environmental Studies, Institut Teknologi Bandung (ITB), are pleased to announce the Sixth International Symposium on Southeast Asian Water Environment, scheduled to be held in Bandung, Indonesia from 29-31 October 2008. The purpose of this Symposium is to provide a forum for discussion and exchange among researchers/practitioners in Environmental Technology and Management and related areas from the Asian Region and to promote interaction among researchers from Asia-Pacific countries, Japan and other parts of the world. We do hope that, through the Symposium, a strong network or partnership with active local agents will be established, and our colleagues in Southeast Asia will learn more from the experts of other countries to protect the environment of the region.

On behalf of the Symposium organizing committee, we would like to invite interested researchers/experts to send their contributions/papers to the Symposium and actively disseminate this announcement to potentially interested people/organizations.

Prof. Shinichiro Ohgaki
Director, RECWET-UT
Co-Director, SACWET-AIT&UT

Call for paper:

The following specific subjects related to Asian water environment, especially in Southeast Asia, are selected as the topics.

- Water environment management and conservation
- Groundwater issues
- Water and wastewater treatment
- Appropriate technologies
- Water and aquatic resource management
- Hazardous chemicals control and management
- Public participation and involvement

Other topics related to water environment are also welcome as poster presentation. Participation from NGO/NPO is also welcome.

Manuscripts for platform and poster presentations should be prepared according to the format specified at:

http://www.env.t.u-tokyo.ac.jp/project/asian_water2008/

Papers for platform presentations should be submitted via e-mail to:
asiasympo2008@env.t.u-tokyo.ac.jp

by **July 31, 2008**. All applicants will receive an acknowledgment via e-mail upon submission of the manuscript. The corresponding author will be informed of the result of the review by early September. Papers for the poster presentations should be submitted to the e-mail address above by **September 15, 2008**.

Financial assistance:

Full support (a round trip air ticket, coach class, and accommodations) or partial support (accommodations only) will be provided for selected platform presenters from the developing Asian region. Presenters from developed countries will not be supported even though they originally may have been residents of developing countries.

Registration and fee:

Please complete the registration process through the Internet. The URL of the registration page is:

http://www.env.t.u-tokyo.ac.jp/project/asian_water2008/

Registration fee

According to the high/low income country list by International Water Association, registration fee is set as follows:

High Income country: 2,300,000 IDR / 25,000 JPY

Low Income country: 800,000IDR

Note that the country here does not mean the nationality but the place of residence. The registration fee includes full attendance for the three-day activities, including academic and social events, field trip and symposium proceedings as well as materials supplied by the symposium organizing office.
